This certificate will expire on: 16 Sep 2018

For BUREAU VERITAS,

At BV PORT EVERGLADES CENTRE, on 24 September 2014,

For Flavio Rosas *Nikolay Georgiev*

This certificate remains valid until the date stated above, unless cancelled or revoked, provided the conditions indicated in the subsequent page(s) are complied with. This certificate is issued within the scope of the General Conditions of BUREAU VERITAS Marine Division available on the internet site www.veristar.com. Any Person not a party to the contract pursuant to which this document is delivered may not assert a claim against BUREAU VERITAS for any liability arising out of errors or omissions which may be contained in said document, or for errors of judgement, fault or negligence committed by personnel of the Society or of its Agents in establishment or issuance of this document, and in connection with any activities for which it may provide.

THE SCHEDULE OF RECOGNITION

1. RANGE OF THE RECOGNITION

Nance and Underwood Rigging has been audited by Bureau Veritas auditor on September 16, 2014. As a result of this audit, the company has been approved to perform in-house Load Testing of Rigging, Hoisting and Lifting components such as wire, synthetic wire ropes, shackles, splices, bridles, etc... using primarily the Test Bed for Pull/Push testing along with its calibrated load scale/cell No.: OP-925. Listed below are other Nance and Underwood Rigging equipment used for in-house and/or on board testing:

- Dillon-Dynamometer, Serial Number D51610, Range 0 – 10000lbs. Calibration valid thru December 13, 2014;
- Gauge Ref. No.: NURID 12374, Model No.: 2000/C 6/14, Gauge Range 0 – 15 kN;

Bureau Veritas Specific Conditions:

- In case of load tests performed on board of BV classed ships, such tests are required to be agreed with BV Ships In-Service Department located at the BV Port Everglades office and other parties involved such as ship owner or its representative.
- Any Load Testing on equipment intended for BV classed ships is to strictly follow the BV Rules requirements, owners agreement and equipment manufacturer's specifications. Bureau Veritas attending surveyor must be informed prior to testing.
- Load Testing on equipment other than those intended for BV classed ships are to be performed per Nance and Underwood Rigging procedures, regulations and standards referred in Nance and Underwood Rigging quality system documentation.
- Any Load Testing is always to be carried out using up-to-date calibrated load scales/cells.

2. LIMITATIONS

The approval is limited to conditions listed in the above range of recognition.

Bureau Veritas is to be informed immediately of any modification to load testing facilities and associated quality procedures in order to agree on appropriate actions.

Nance and Underwood Rigging has to apply for the periodical audits as agreed with Bureau Veritas.

3. REMARKS

Nil.
